Opening of the press release

SpaceX began trading on the Nasdaq Friday, boosting Musk’s fortune to an estimated $1.1 trillion.

NEW YORK - June 12, 2026 - On Friday, Forbes declared Elon Musk as the world’s first trillionaire, as SpaceX’s stock began trading on the Nasdaq at $150 per share, giving the company a nearly $2 trillion market cap. Forbes estimates that the IPO has boosted Musk’s fortune to $1.1 trillion, as of Friday morning. His net worth rose by $188 billion to an estimated $982 billion on Thursday evening, when SpaceX priced the IPO at $135 per share.
